

Temperatures (degree Fahrenheit)	
Region 1	Region 2
89, 100, 95, 98, 88, 85, 48, 99, 97, 90	37, 51, 43, 47, 37, 47, 41, 48, 49, 35
Region 3	Region 4
81, 81, 79, 65, 73, 70, 78, 80, 81, 80	70, 71, 70, 69, 69, 68, 70, 69, 68, 69

Scientists are studying the temperatures of four regions to determine if global warming is actually happening or if the earth naturally goes through warm cycles and cold cycles. Scientists are trying to find one number that describes each region the best. Determine the mean and median each region. Determine which of these Measures of Center best describes each region. Include specific details about the data to support and justify your choices.
