Principal's Message

March has arrived! This is always a very busy month. March 10 marks the beginning of the last quarter of the year. Teachers will be focusing heavily on getting students ready for state testing in grades 3-6. Fourth grade begins state testing on March 31. It will continue throughout April and into the beginning of May. Additionally, spring benchmarking will be done at all grade levels so we can see the growth of all students from the beginning of the year. It is important for us to measure growth so we can make educational decisions each year. I received a letter from the Director of the Department of Education and Workforce recently congratulating us on earning a 5-star Award for our performance on the Ohio School Report Card last year. It is quite an honor and a testament to our outstanding teachers and the hard work of our students. Hopefully, with the warming of the weather, we will be able to be outside most days for recess. March weather typically changes from day to day, so keep an eye on the forecast each morning as your child heads out the door. Many of our students will be involved in extracurricular activities beginning this month. I know it makes schedules hectic, but please continue to support your child's education by encouraging the completion of homework. Students who earn the CATS reward this quarter will be going roller skating on March 17. They always enjoy the opportunity to get out and do something fun. As always, feel free to contact us with questions or concerns as we begin the end of this school year.
